SKILLS

Advanced Critical Thinking

Communication & Collaboration Skills

Technical Writing Skills

Data Driven Decison Making

EDUCATION

BEng, Mechatronics Engineering

F.U.T.O

2016 - 2021

Second Class Lower

CERTIFICATION

Backend Developer
TIIDELab initatives

Jan, 2023 - Dec, 2023

Software Engineering
Alx

May, 2022 - Dec, 2023

React Learning Program
Andela

Oct, 2023

PROGRAMMING LANGUAGES & FRAMEWORKS

JavaScript & Node Js

Express Framework

Git & Github, and Sequelize ORM

Restful APIs

HTML , CSS , Tailwind CSS

PROFILE

Results-driven backend developer proficient in backend technologies like MySQL, MangoDB, JavaScript, Python, django, Node.js and expresss. Detail-oriented and eager to learn, with a passion for optimizing system performance and ensuring data security. Ready to contribute to dynamic development team or an organization.

WORK EXPERIENCE

Backend Developer

TIIDELab, Abuja Nigeria   June, 2023 - December, 2023

- Designed and developed an efficient ERD, providing a comprehensive representation of a career mentorship and job placement website.
- Utilized Sequelize ORM to establish seamless connectivity with the MySQL database, ensuring optimal functionality for the application.
- Implemented the Node.js runtime environment to construct a robust and secure server-side for the application.
- Spearheaded the development of a secure backend infrastructure, ensuring the efficient management of user data and records.
- Integrated Paystack API seamlessly to enhance the app's functionality for subscription purposes.
- Led the backend team in collaboration with team members, ensuring the successful realization of project goals.

Frontend Developer

Bitspro limited

- At Bitspro Limited, I played a pivotal role in developing both the backend and frontend of the web application. On the backend, I helped build the architecture from the ground up using JavaScript, Express, Mongoose, and MongoDB, ensuring a robust and efficient data handling system.
- Simultaneously, I developed the frontend with React and Vite, utilizing Tailwind CSS for responsive and modern styling.
- I seamlessly integrated the frontend with backend APIs, creating a cohesive and user-friendly experience. This full-stack approach ensured smooth communication between the components and contributed to the overall success of the project.
